

## *Product Description*

Product : Immobilized Human Plasmin - Product # HPL-I

### **Considerations**

Storage Conditions : Store at 4° C  
stability >1yr

Storage Buffer Composition : 0.1M HEPES; 0.1M NaCl;  
0.01% Sodium Azide; pH 7.5

### **Specifications**

Resin Matrix: Affi-Gel 10  
Ligand density: 1-2 mg/ml Human Plasmin  
Attachment: Amino  
Application : Activate scuPA, sctPA, to 2 chain  
Forms. Convert Glu Plg to Lys  
plasmin
